
Hi! I'm Pepper.

I'm still learning to be a good conversation partner. **My camera and microphones record all the time**, so my team can help me get better.

1. **What I record:** what my camera sees and what I hear around me, including your voice and what you say to me.
2. **It stays here.** My recordings are kept on our lab's own computers. They are never posted or shared, and they are only used to help me learn.
3. **To think of a reply**, I send the words you say (as text) and any photo I take to my AI helper online.
4. **Your name?** I only remember you from one day to the next if you say yes when I ask. Say *"forget me"* any time and I will.
5. **Rather not be recorded?** That's okay! Just tell my team, and we will delete your recording.

Thanks for helping me learn!
